

Hannah Hunter

Throughout my 21 year career I have worked exclusively for charities and non-profits as a Fundraising and Communications Manager including over seven years at a large Hospice organisation, several years for a charity for children with disabilities and five years at Alzheimers Northland. I now work on a freelance basis helping non-profits grow and develop. I have recently completed a graduate diploma at Massey University studying subjects such as Strategic Management and Governance, Designing and Developing Organisations, Managing Services and Managing Organisations. I love our Whangaroa community and already volunteer in groups, I see this as my way of contributing.
